U. S. Secret Service has been investigating [redacted] since February, 1970, for writing threatening letters to important political persons. Postcards bearing obscene typewritten messages and signed [redacted] Halifax, Virginia, have been sent to President NIXON; Vice President AGNEW; Senator FULBRIGHT; Senator MUSKIE and Governor REAGAN.

[redacted] to Congressman Ford (Republican - Michigan) today furnished a post card postmarked Greensboro, North Carolina which Congressman Ford received yesterday. The writing on the post card is extremely obscene and threatens the Congressman's life unless he engages in homosexual activity with the writer.

The United States Postal Service at Norfolk, Virginia, on February 17, 1971, intercepted a post card bearing a Greensboro, North Carolina, postmark addressed to Virginia State Senators Henry E. Howell, Jr. and Peter K. Babalas. The message on this post card is identical to that set forth in the post card to Congressman Ford. Both post cards were signed [redacted] Halifax, Virginia. [redacted] is [redacted] at Halifax, Virginia.

Secret Service in Richmond, Virginia, advised our office that the post card was possibly written by one [redacted] Virginia. Secret Service has a voluminous file containing similar-type letters to the President and other Government officials written by [redacted] It has been reported that [redacted] is on probation for writing a similar-type letter. The United States Attorney's office in Norfolk advises prosecution will be entertained if the writer of the post card is identified.

Secret Service and appropriate law enforcement agencies in Washington, D. C., have been advised of the post card sent to Congressman Ford. Investigation is being pressed to identify the writer so that presentation may be made to the United States Attorney. Specimens received from Washington Field Office, 2/19/71

Q1 U. S. postal card postmarked "GREENSBORO, NC 2A PM
13 FEB 1971," bearing typewritten address "Senator
Wilbur D. Mills, D-Ark. Washington, D.C." and bearing
on reverse side the typewritten message beginning
"I want to ..." and ending "... Halifax, Va. 24553."

Specimen received 2/19/71

Q2 U. S. postal card postmarked "GREENSBORO, NC 2B -AM
1 FEB 1 71," bearing typewritten address "House
Republican Leader Gerald R. Ford Washington, D.C."
and bearing on reverse side the typewritten message
beginning "I am ..." and ending "... kill her too."

Result of examination:

Q1 and Q2 were compared in the Anonymous Letter
File, but no identification was effected. Appropriate
photographs will be added to the file for future reference.

The typewriting on Q1 and Q2 conforms most closely
to the Laboratory standard for Remington pica type, spaced
ten letters to the inch. It was noted that the typewriter
impressions on Q1 and Q2 are of the same size and style and
have a limited number of characteristic defects in common
which suggest the possibility that the typewriter impressions
on the two specimens were prepared by the same typewriter;
however, the characteristic defects are too limited to permit
any definite conclusion.

Enclosed for WFO is one copy each of Norfolk nitel to Director, Charlotte and Richmond dated 2/18/71, Richmond nitel to Director, Norfolk and Charlotte dated 2/20/71, Norfolk letter to Director, Attn: FBI Laboratory, dated 2/19/71, and enclosure forwarded with Norfolk letter to Director dated 2/19/71, under the caption "UNSUB; HENRY E. HOWELL, JR. - VICTIM; PETER K. BABLAS - VICTIM, EXTORTION".

Enclosed for Norfolk is one copy each of WFO airtels to Director dated 2/18/71 and 2/19/71, together with enclosures transmitted therewith under the title [REDACTED] CONGRESSMAN WILBUR D. MILLS - VICTIM; SECRETARY OF STATE WILLIAM P. ROGERS - VICTIM; EXTORTION".

A review of this matter suggests that all the communications originated from the same source. Investigation by Norfolk has indicated that the unsub is probably [REDACTED] Va., a mentally unstable individual, who should be considered dangerous.

It should be observed that South Boston, Va., is located near the North Carolina-Virginia line, and is only a short distance from Greensboro and Winston-Salem, N. C. It is further to be noted that the AUSA at Norfolk, Va., is considering prosecution of the unsub if he is identified.

In view of the foregoing, Charlotte will not cover the leads set forth by WFO in its airtels of Feb. 18 and 19, 1971, unless subsequently advised to the contrary by the office of origin. This case is remaining in a dead status in the Charlotte Division.

Result of examination:

It was determined that the questioned typewriter impressions on Q9 through Q15 and Q20 through Q23 were prepared by a typewriter or typewriters equipped with Remington pica style of type, spaced ten letters to the inch. It was further determined that this is the same style and size of type used to prepare the questioned typewriter impressions on Q1 through Q8, previously submitted in this case. Although a limited number of characteristics in common were noted in the questioned typewriter impressions on Q1 through Q15 and Q20 through Q23, it was not possible to definitely determine whether the same typewriter was or was not used in the preparation of those specimens due to the limited nature of the characteristic defects. No significant differences were noted in the typewriter impressions on those specimens.

It was determined that the typewriter impressions on checks Q16 through Q19 were not prepared by the same typewriter or typewriters used to prepare the typewriting on the remainder of the specimens submitted in this case. The typewriter impressions on checks Q16 through Q19 were prepared in a different style of type than that on the remaining specimens.

No indented writings of significance, watermarks, or other significant features were noted in an examination of Q9 through Q23 which would aid in determining there immediate source.

Q9 through Q23 were photographed. Q9 through Q15 and Q20 through Q23 are retained temporarily. Q16 through Q19 are returned to Richmond with copies of this report.

Enclosed for Norfolk are 2 copies of Albany airtel to Director dated 3/4/71, and one copy of the enclosure therewith.

On 3/8/71, Mr. JOHN H. GRIMES, Special Agent in Charge, U. S. Secret Service Office, Charlotte, N. C., telephonically advised that his office had received from the State Bureau of Investigation (SBI), Raleigh, N. C., two cards postmarked at Durham, N. C., 3/1/71, which were prepared on a typewriter and contained the same message as previous cards received in this case, including the name of [REDACTED] Va. One of these cards was addressed to Governor ROBERT W. SCOTT of North Carolina, and the other to [REDACTED] to Governor SCOTT. He stated the SBI requested that the cards be returned to their office. In view of the investigation being conducted by the SBI in this matter, the original cards are not being obtained, and active investigation is not being conducted concerning the cards received by Governor SCOTT and [REDACTED] UACB.

Mr. GRIMES stated that he is not aware of the status of the Secret Service investigation which is being conducted out of the Richmond Office regarding similar cards previously mailed to Vice President AGNEW and other Federal officials. He stated, however, that investigation by Secret Service has indicated that the UNSUB must use gloves in handling the cards, as no latent fingerprints of value have been found on any of the cards. He stated suspect [REDACTED] reportedly is on Federal parole and under the supervision of the Federal Probation Officer at Danville, Va. *MC*

For the information of the Albany Division, a series of similar cards have recently been received by the various victims listed in this case. These cards have been mailed from Greensboro, N. C., and from Durham, N. C. [REDACTED]

[REDACTED] is reported to be [REDACTED]

[redacted] of [redacted] Virginia, has been developed as a suspect. He reportedly is mentally unbalanced. South Boston, Virginia, is located near the North Carolina line and is a relatively short distance from Greensboro and Durham, N. C.

All investigation to date points strongly to [redacted] of [redacted] Va., as the UNSUB in this case. The large quantity of postcards which have been mailed and the post marks on the cards suggest that they are prepared in advance and mailed in groups. Under the assumption that [redacted] is the UNSUB, the overall circumstances would suggest that he prepares the postcards in South Boston, Va., and periodically travels to North Carolina for the purpose of mailing them. They are usually mailed on weekends. It would, therefore, appear that investigation and possibly surveillance of [redacted] is in order. The possibility exists that he could be surveilled to a Post Office or a Post Office Box and observed to mail some of the cards, which could then be recovered.

REQUEST OF THE BUREAU

The FBI Laboratory is requested to examine the original postcards which have been previously forwarded for examination to determine if they are all prepared on the same typewriter, and further to provide a description of the make of typewriter, in order that investigation may be conducted in the South Boston, Va., area to locate the typewriter used by the UNSUB.

NOTE TO SACS, NORFOLK, WASHINGTON FIELD OFFICE,
CHARLOTTE, AND RICHMOND:

For your additional information, similar post cards have now been received by Associate Justices of the Supreme Court William J. Brennan Jr., and Justice Harry K. Blackmun jointly, and Senator Vance Hartke (Democrat - Indiana), both postmarked Durham, North Carolina. You should expedite all logical investigation to identify the author of these post cards and present to the appropriate U.S. Attorney. All offices should advise local and Federal authorities concerning these threats. The Laboratory has advised that a Remington pica typewriter, ten letters to the inch, was used to type these post cards; however, no defects in the lettering have been discovered.

NOTE:

Senator Vance Hartke (Democrat - Indiana), with whom we have cordial relations, forwarded an obscene threatening post card by referral slip dated 3/4/71. Several high-placed persons in local and Federal Government have received identical obscene threatening postcards signed [redacted] Halifax, Virginia 24558" [redacted] Halifax, Virginia, is [redacted] He has no idea as to the author. Secret Service has advised that these post cards are possibly written by one [redacted] Virginia, on whom they have a file for writing similar type letters to the President and other Government officials. [redacted] is allegedly on probation as a result of writing letters to the President. All offices have been previously instructed to press this matter vigorously. Vernon W. Coble, Captain in Charge, U.S. Supreme Court Police, referred the post card received at the Supreme Court to the Bureau.

Q24 U. S. postal card postmarked "DURHAM, NC 2A 1971 PM

Result of examination:

The typewriter impressions on Q24 are similar in style and size to the typewriter impressions on Q1 through Q15 and Q20 through Q23, previously submitted. Although a limited number of characteristics in common were noted in the questioned typewriter impressions on Q1 through Q15 and Q20 through Q24, it was not possible to definitely determine whether the same typewriter was or was not used in the preparation of those specimens due to the limited nature of the characteristic defects. No significant differences were noted in the typewriter impressions on those specimens.

Dear Sir:

Enclosed is a card which arrived in the Senator's mail on March 4. Unfortunately, we cannot be certain that the proper envelope is attached to the card; however, our mail clerk upon realizing that he should identify the envelope checked through several he had discarded -- none postmarked Virginia -- and he feels that this is very likely the envelope used.

Of course, we have no way of knowing whether the name and address on the card are that of the sender and I would guess that this is probably a fictitious name or that it was used without the person's knowledge. I presume you may want to check this out.

Sincerely yours,

REQUEST OF THE LABORATORY:

Compare typewriting on enclosures with specimens previously submitted to Laboratory (Laboratory numbers D-710219084-MS and D-710222012-MS).

It is to be noted that enclosed checks have been previously examined by both the U. S. Secret Service and the U. S. Post Office Department; however, it is believed most advantageous to have these documents now examined by Bureau examiners. In the event Laboratory testimony would be necessary in this case, it is desirable that Bureau experts testify rather than another Government agency. Therefore, it is requested that the Laboratory conduct the above requested examination.

Commonwealth's Attorney, Halifax, Va., advised [redacted] case is continued until 3/23/71, and requests enclosures be returned for court date, to Richmond Division.

In view of above, Bureau is requested to expedite examination of enclosures which are to be used as evidence in Halifax Co., Va., 3/23/71.

bearing the typewritten address "Frank Sinatra Palm

Q28 Index card bearing typewritten message beginning
" I am a ..." ending "...Halifax, Va. 24558"

Result of examination:

It was determined that the questioned typewriter impressions on Q27 and Q28 were prepared by a typewriter or typewriters equipped with Remington pica style of type, spaced ten letters to the inch. It was further determined that this is the same style and size of type used to prepare the questioned typewriter impressions on similar specimens previously received in this case. Although a limited number of characteristics in common were noted in the questioned typewriter impressions on Q27 and Q28 when compared with the typewriter impressions on previous specimens, it was not possible to definitely determine whether the same typewriter was or was not used in the preparation of those specimens due to the limited nature of the characteristic defects. No significant differences were noted in the typewriter impressions on those specimens.

No indented writings of significance, watermarks, or other significant features were noted in an examination of Q27 and Q28 which would aid in determining their immediate source.

Q27 and Q28 were photographed and will be returned separately to Los Angeles.
